WHO WE ARE

Mid-South Testing, Inc. is a Certified Woman-Owned Business Enterprise and a SBA Woman Owned Small Business that provides a wide range of environmental services, environmental consulting, environmental remediation, and surveying and mapping services to federal government agencies.

Over the last 40 years, we've earned widespread recognition for high-quality, innovative, and practical solutions to challenging projects.

Clients trust our team of seasoned professionals to navigate projects through complex local, state, and federal regulations to avoid costly construction delays and unnecessary remediation.
